Jaypee Journals

Dear Readers,

We are happy to share that two more of Jaypee's journals, The Journal of Medical Sciences and Bengal Physician Journal, have been included in the respected DOAJ listing...

In this edition of our newsletter, we will explore the intricacies of Plan S, an important initiative aimed at advancing open access to research publications.

Through our discussion of Plan S, we aim to explore further how it is shaping the landscape of scholarly communication and driving positive change for the benefit of researchers and society.

For advertising inquiries, please get in touch with us at business@jaypeejournals.com

Understanding Plan S

Plan S is a brave and forward-thinking initiative that seeks to promote open access to research funded by public grants. The primary goal of Plan S is to remove the barriers of restricted access...

The Story Behind Plan S: From Inception to Implementation

In 2018, Plan S emerged as a promising solution to overcome the inherent limitations of traditional publication models. These models were plagued by paywalls and subscription barriers...

Thanks to their efforts, 25 funding agencies now mandate open-access rules for supported researchers. This means that researchers have easier access to a wealth of knowledge that was once behind paywalls...

cOAlition S

COAlition S is an organization that serves as the driving force behind the Plan S initiative. With a clear goal of immediate open access to research publications, the organization has identified 10 core principles...

Plan S Principles: Effective from 2021

Part I: Introducing Plan S Principles
Plan S instructs immediate open access to research publications resulting from publicly or privately funded research...

Plan S mandates:
• Open access for research funded by public or private grants.
• Author copyright retention.

Part II: Guidance on Plan S Implementation
This section provides detailed guidance on achieving Plan S compliance, including strategies for transitioning subscription publishers to open access models...

Plan S emphasizes:
• Immediate open access to research publications.
• Alignment with the San Francisco Declaration on Research Assessment (DORA) principles.

Part III: Technical Guidance and Requirements
Technical specifications and requirements for publication venues and repositories are outlined to ensure adherence to Plan S principles...

Plan S outlines strict criteria for publication venues and open access repositories, including:
• Stringent quality measures.
• Transparent pricing.

The recent surge towards open access has highlighted the need for innovative publishing practices. Researchers are embracing pre-peer review sharing, open peer review, and novel models like 'diamond' publishing...

Advancing Responsible Publishing: Embracing Change for Global Impact

The COVID-19 pandemic has highlighted the critical need for rapid dissemination of scientific information, leading researchers and scholars to include innovative publishing practices...

As the academic landscape continues to evolve, receiving input from a diverse group of participants is essential. This includes researchers, scholars, publishers, funders, and the general public...

Jaypee's Commitment to Open Access

As we close this discussion on Plan S, let us highlight our duty to promote an inclusive, collaborative, and supporting scholarly publishing ecosystem...

We believe that by embracing open-access publishing, we can create a brighter future for the scholarly ecosystem, one that is more inclusive, accessible and equitable...

Until next time, stay curious and keep pushing the boundaries of knowledge.
